

FOUNDERS' DAYS GRAND PARADE

FLOAT INSPECTION CHECKLIST

Name of Float Entry _____

The float driver must have this Inspection Checklist in his/her possession the day of the Grand Parade. The driver must check off and sign this Inspection Checklist and present it to the Grand Parade Safety Official(s) inspecting the floats prior to the beginning of the Grand Parade.

- | Driver | Safety Official | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | 1. Driver has proper 180-degree vision (or communications). |
| <input type="checkbox"/> | <input type="checkbox"/> | 2. Driver has proper ventilation. Driver's compartment has been tested and is free of carbon monoxide. |
| <input type="checkbox"/> | <input type="checkbox"/> | 3. Driver has rapid secondary means of escape. |
| <input type="checkbox"/> | <input type="checkbox"/> | 4. Float driver has a valid driver's license. |
| <input type="checkbox"/> | <input type="checkbox"/> | 5. Personnel will not be allowed to smoke on or near the float. |
| <input type="checkbox"/> | <input type="checkbox"/> | 6. Engine is clean of excessive oil and grease residue to prevent overheating and to reduce any fire problem. |
| <input type="checkbox"/> | <input type="checkbox"/> | 7. Float has a UL approved, 5 lb. Type AB fire extinguisher, which has been serviced, tagged and dated to within one (1) year by a fire extinguisher servicing company. |
| <input type="checkbox"/> | <input type="checkbox"/> | 8. For emergencies, a horn must be present. |
| <input type="checkbox"/> | <input type="checkbox"/> | 9. All decorative materials used must be flame retardant. |
| <input type="checkbox"/> | <input type="checkbox"/> | 10. Brakes are in good working order. Tires have been checked for legal tread depth. Float is properly serviced with gasoline, oil and water. No extra gasoline may be carried on the float. |
| <input type="checkbox"/> | <input type="checkbox"/> | 11. Towed trailers or towed floats must have safety cables or chains in place and attached to the towing unit: towing hooks (front and rear) are accessible and of sufficient strength for towing. |
| <input type="checkbox"/> | <input type="checkbox"/> | 12. Exhaust pipe is free of leaks, extends at least 12 inches beyond the apron. Where the exhaust pipe is within 12 inches of the apron (any direction), the exhaust pipe is to be protected from lagging. |
| <input type="checkbox"/> | <input type="checkbox"/> | 13. Each standing float rider must have approved body support. Seated riders' safety will be assessed by the Grand Parade Safety Official. |
| <input type="checkbox"/> | <input type="checkbox"/> | 14. Generators: portable generators, if used, need to be securely mounted. Approved installation needs to separate decorative materials and generator. Generators must be equipped with a metal exhaust. This could terminate, either in a common exhaust (vehicle and generator), or to extend to the exterior of the float same as the vehicle exhaust. |

The above inspection has been made, and to the best of our knowledge, this float is acceptable for participation in the Cashmere Founders' Days' Grande Parade.
